Cameron Lake, Trent-Severn Waterway

Watersports

Cameron Lake is an ideal size for watersports, with plenty of space for boats but not so large that waves become a major issue on windier days.

Fishing

Cameron Lake is home to a range of game fish species, including small and large-mouth bass, walleye, northern pike and muskie.

Swimming

Cameron Lake has a higher proportion of prime, sand-bottomed waterfront than any other lake in the western Kawarthas, which makes for ideal child-friendly swimming.

Hiking

The 85km Victoria Rail Trail passes through Fenelon Falls and up the eastern shore of Cameron Lake. It is perfect for hiking and cycling.

Winter Activities

Snowmobilers can also use the Victoria Rail Trail in winter to access the large network of trails further north near the village of Burnt River.
